

Florent PLED

Address	Université Gustave Eiffel Laboratoire Modélisation et Simulation Multi-Echelle (MSME) UMR 8208 CNRS 5 bd Descartes, Champs-sur-Marne F-77 454 Marne-la-Vallée Cedex 2, France Lavoisier Building, Room B12	Assistant Professor Université Gustave Eiffel Laboratoire Modélisation et Simulation Multi-Echelle (MSME) UMR 8208 CNRS
Phone	+33 (0) 1 60 95 77 82	
Cell	+33 (0) 6 10 94 83 91	
Fax	+33 (0) 1 60 95 77 99	
E-mail	florent.pled@icloud.com florent.pled@univ-eiffel.fr	
Personal page	https://pagespro.univ-gustave-eiffel.fr/florent-pled	
Id HAL	florent-pled	
Id ORCID	0000-0003-1389-6507	
Nationality	French	
Birthdate	September 7, 1984 (38 years old)	
Birthplace	Clichy (92110), France	

Education and training

- 2013 - 2014** **Postdoctoral Fellow** in Mechanical Engineering
Research Institute in Civil Engineering and Mechanics (GeM), Ecole Centrale Nantes, France
- 2009 - 2012** **Ph.D.** in Mechanical Engineering with first class honors
ENS Cachan, Laboratory of Mechanics and Technology (LMT-Cachan), Cachan, France
- 2008 - 2009** **Master's Year 2: M.S.** in Mechanical Engineering (Advanced Techniques in Structural Computations) with first-class honors
ENS Cachan / Pierre et Marie Curie (Paris VI) University, France
- 2007 - 2008** **Agrégation**, High-level french national competitive exam for Public Education
Rank: 11th nationally
- 2006 - 2007** **Master's Year 1: M.S.** in Mechanical Engineering, Materials and Structures with upper second-class honors
ENS Cachan / Pierre et Marie Curie (Paris VI) University, France
- 2005 - 2006** **Bachelor:** **B.S.** in Mechanical Engineering and Technology with upper second-class honors
ENS Cachan / Pierre et Marie Curie (Paris VI) University, France
- 2005** Admission at Ecole Normale Supérieure de Cachan (ENS Cachan), a leading french institution to train teachers and researchers

Teaching and academic experience

- Since 2014** **Assistant Professor at Laboratoire Modélisation et Simulation Multi-Echelle (MSME) UMR 8208, Université Gustave Eiffel**, France (192h per year)
Probability theory and Statistics, Structural reliability in Mechanical and Civil Engineering, Numerical analysis, Numerical calculations for structural analysis, Strength of materials, Theory of beams, plates and shells
- 2012 - 2013** **Teaching assistant at Ecole Polytechnique** at Palaiseau, France (20h)
Structural analysis using the Finite Element Method for linear and nonlinear materials
- 2009 - 2012** **Teaching assistant at ENS Cachan and Pierre et Marie Curie (Paris VI) University**, France (193h)
Continuum Mechanics (Beam theory, Theorems of energetics), Computational Mechanics (Numerical engineering and design using computational tools, Finite Element Method, Algorithms for solving nonlinear problems), Applied Mathematics (Variational formulation), Verification (Global/goal-oriented error estimation methods)
- 2010 - 2012** **Teaching assistant at Ecole Polytechnique Féminine (EPF)** at Sceaux, France (60h)

	Wave Mechanics and Optics
2006 - 2009	Teaching assistant at Ecole Militaire de Paris / Enseignement Militaire Supérieur Scientifique et Technique (EMSST), Paris, France, option Engineering Sciences Preparation in Physics and Electrokinetics to the competitive entrance exam to the french military school
2006 - 2007	Oral examiner in “Classes Préparatoires aux Grandes Ecoles” (competitive examination for elite higher education institutes) option PC/PC* (Physics, Chemistry) at Lycée Louis Pasteur, Neuilly, France (2 to 3h per week)
2008 - 2011	Intensive preparation in Physic Sciences to the competitive entrance exam to french engineering schools

Research activities

Current research interests

- Uncertainty quantification in computational mechanics and engineering sciences
- Stochastic multiscale modeling of random heterogeneous materials
- Multiscale statistical inverse identification of probabilistic models, Computational stochastic homogenization
- Machine learning, Artificial neural networks
- Multiscale computational methods, Domain decomposition methods

Postdoctoral Fellowship (2013 - 2014)

Topic:	Multiscale method with patches for the propagation of localized uncertainties in linear and non-linear stochastic models
Project:	ANR-12-MONU-0002 - ICARE - Generalized interfaces and non-intrusive coupling between R&D and standard software for computational mechanics
Laboratory:	GeM, Ecole Centrale Nantes, France
Supervisors:	A. Nouy, M. Chevreuil
Keywords:	Uncertainty quantification and propagation, Multiscale method, Stochastic parametric PDE's, Domain decomposition, Fictitious domain methods, Nonlinear stochastic models, Spectral stochastic methods, Sparse approximation, High-dimensional problems

Ph.D. Thesis (2009 - 2012)

Title:	Towards a robust and effective strategy for the control of finite element computations in mechanical engineering		
Laboratory:	LMT-Cachan, ENS Cachan / Pierre et Marie Curie (Paris VI) University, France		
Supervisors:	P. Ladevèze, L. Chamoin		
Defended on:	December 13, 2012 at Ecole Normale Supérieure de Cachan (ENS Cachan)		
Keywords:	Verification, A posteriori error estimation, Finite element method, Constitutive relation error, Admissible fields, Goal-oriented error estimation, Guaranteed error bounds, Non-intrusive techniques, Saint-Venant's principle		
Committee:	Nicolas Moës	Professor at Ecole Centrale Nantes	President
	Pedro Díez	Professor at Universitat Politècnica de Catalunya	Reviewer
	Martin Vohralík	Senior researcher at INRIA Paris-Rocquencourt	Reviewer
	Albert Alarcón	Engineer at EDF R&D	Examiner
	Erwin Stein	Professor at Leibniz Universität Hannover	Examiner
	Ludovic Chamoin	Assistant professor at ENS Cachan	Advisor
	Pierre Ladevèze	Professor at ENS Cachan	Advisor

Research internship during the 2nd year of Master (March - August 2009)

Topic:	Comparison of methods for constructing admissible fields in the context of robust goal-oriented error estimation		
Laboratory:	LMT-Cachan, France		

Advisors: L. Chamoin, E. Florentin

Research internship during the 1st year of Master (April - August 2007)

Topic: Numerical simulation of the crushing of foam-filled aluminium tubes
Laboratory: Deakin University, Geelong, Australia
Advisor: W. Yan

Honors and Awards

- 2013** Eligible participant of the *3rd ECCOMAS PhD Olympiad* selected by the French Computational Structural Mechanics Association (CSMA), ECCOMAS local association (France), 3rd place for CSMA Best PhD Thesis

- 2013** F. Pled, M. Chevreuil, A. Nouy, E. Safatly. A multiscale domain decomposition method for the solution of stochastic partial differential equations with localized uncertainties. *Journée des doctorants du GeM*, Nantes, France, May 2013.

Professional activities and scientific responsibilities

Membership of Scientific Committees or Organizing Committees of International and National Conferences

- 2017** Member of the Local Organization Committee, *CMCS 2017 - Computational modeling of Complex Materials across the Scales*, Paris, France, November 7-9, 2017. URL: <https://cmcs2017.sciencesconf.org>.
- 2013** Member of the Local Organization Committee, *YIC 2013 - 2nd ECCOMAS Young Investigators Conference*, Bordeaux, France, September 2-6, 2013. URL: <https://yic2013.sciencesconf.org>.

Organization of International Conferences, Mini-Symposia (MS) in International Conferences and Workshops

- 2022** Co-organizer of MS 1314: Statistical Inverse Problems and Related Stochastic Optimization Methods for Random Heterogeneous Materials, F. Pled, C. Desceliers, M. Arnst. *15th World Congress on Computational Mechanics (WCCM XV)*, Yokohama, Japan, July 31-August 5, 2022. URL: <https://www.wccm2022.org/minisymposia.html#a1300>.
Co-organizer of MS 42: Uncertainty Quantification in material sciences, F. Pled, C. Desceliers, M. Arnst, C. Soize. *8th European Congress on Computational Methods in Applied Sciences and Engineering (ECCOMAS 2022)*, Oslo, Norway, June 5-9, 2022. URL: <https://www.eccomas2022.org/frontal/MSList.asp>.
- 2021** Co-organizer of MS 309: Data-driven Science with Uncertainty Quantification, Machine Learning, and Optimization, J. Stewart, K. Garikipati, R. Ghanem, M. Bessa, C. Desceliers, A. Figueroa, M. Mignolet, F. Pled, C. Soize. *16th U.S. National Congress on Computational Mechanics (USNCCM16)*, Chicago, Illinois, U.S., July 25-29, 2021. URL: <http://16.usnccm.org/congressMS>.
Co-organizer of MS 184: Data-driven science with uncertainty quantification, machine learning, and optimization, C. Desceliers, C. Soize, J. Stewart, A.F. Alvarez, K. Garikipati, M. Bessa, M. Mignolet, F. Pled, R. Ghanem. *14th World Congress on Computational Mechanics (WCCM XIV)*, Paris, France, January 11-15, 2021. URL: <https://wccm-eccomas2020.org/frontal/MSList.asp>.

Examination of Thesis and HDR (Habilitation Thesis)

- 2021** Member of the jury for the PhD thesis defense of H.N. Nguyen, entitled “New numerical strategies for robust, consistent, and computationally efficient model identification from full-field measurements”, under the supervision of L. Chamoin and C. Ha Minh at Laboratory of Mechanics and Technology (LMT-Cachan), Université Paris-Saclay, France, May 21, 2021. URL : <https://www.theses.fr/2021UPAST061>.

Reviewer for International Journals

- Since 2018** International Journal for Uncertainty Quantification (IJUQ) (1)
Since 2017 Mathematical Problems in Engineering (MPE) (1)

Participation to Recruiting Committees for Assistant or Full Professors positions

May 2019 Assistant Professor position at INSA Toulouse, France

Participation to PhD Monitoring Committee for PhD students

- 2022 -** PhD student: H. Boué
Topic: Digital twin for the generation and control of acoustic and thermal fields for multi-scale and multi-physics non-destructive evaluation of materials
Laboratory: Institut de Mécanique et d'Ingénierie de Bordeaux (I2M), Université de Bordeaux, France
Doctoral school: SPI - Sciences Physiques et de l'Ingénieur #209
Supervisors: A. Meziane
Co-supervisors: A. Giremus, M-M. Groz
- 2021 -** PhD student: A. Sinha
Topic: Optimisation of innovative acoustic treatment of engines for green aviation, using numerical simulations and machine learning
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Desceliers
- 2019 - 2022** PhD student: J. Nespolous
Topic: Constrained optimization under uncertainty of the driver's command for energy saving of high-speed trains using computational stochastic nonlinear dynamics and statistics
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Soize
- 2018 - 2020** PhD student: J. Reyes
Topic: Stochastic multilevel reduced-order computational model in vibroacoustics applied to automobiles
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Paris-Est Marne-la-Vallée (UPEM) devenue Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Soize
- 2018 - 2020** PhD student: V. Dangla
Topic: Robust design of acoustic treatment for nacelle noise reduction using computational aeroacoustics and uncertainty quantification
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Paris-Est Marne-la-Vallée (UPEM) devenue Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisors: C. Soize, C. Desceliers
- 2017 - 2019** PhD student: Q. Akkaoui
Topic: Dynamique numérique des structures avec non-linéarités géométriques couplées avec des fluides acoustiques en présence de ballottement et de capillarité : quantification des incertitudes
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Paris-Est Marne-la-Vallée (UPEM) devenue Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Soize
- 2017 - 2019** PhD student: M. Nesterova
Topic: Reliability of structures exposed to traffic and environmental loads
Laboratory: Expérimentation et Modélisation pour le Génie Civil et Urbain (EMGCU), Institut Français des Sciences et Technologies des Transports, de l'Aménagement et des Réseaux (IFSTTAR) devenu Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Soize
- 2017 - 2019** PhD student: A. Picou
Topic: Robust analysis under uncertainties of bladed disk vibration with geometrical nonlinearities and detuning
Laboratory: Modélisation et Simulation Multi Echelle (MSME), Université Paris-Est Marne-la-Vallée (UPEM) devenue Université Gustave Eiffel, France
Doctoral school: SIE - Sciences, Ingénierie et Environnement #531
Supervisor: C. Soize

Participation to pedagogical and human projects

2016 - 2018 Member of the project team IDEA of the program “Investing for the Future”: Pedag’Innov and Eval’Innov programs on the educational evaluation and pedagogical innovation through distance learning. URL: <http://idea.univ-paris-est.fr/fr/index.html>.

Administrative and collective responsibilities

Since 2022 Coordinator of the research theme “Probabilistic approaches in mechanics” of the Fédération Française de Mécanique - Matériaux, Structures, Procédés (F2M-CNRS FR 2609). URL: <https://f2m.cnrs.fr/la-federation/themes-de-recherche/approches-probabilistes-en-mecanique>.

Since 2020 Master coordinator in M.S. Engineering Projects in Civil Engineering at the Institut Français des Sciences Appliquées (IFSA) at Université Gustave Eiffel, France.

Since 2020 Pedagogical coordinator in Mechanics in B.S. Physics and Chemistry at the Institut Français des Sciences Appliquées (IFSA) at Université Gustave Eiffel, France.

Since 2020 Elected member of the Board of the Laboratory Modélisation et Simulation Multi Echelle (MSME) of Université Gustave Eiffel, France.

Since 2018 Elected member of the Permanent Recruitment Committee (teachers/lecturers and researchers) of the National (French) Council of Universities in sections 60-62 at Université Gustave Eiffel (formerly Université Paris-Est Marne-la-Vallée), France.

2017 - 2019 Elected member of the Board of the Laboratory Modélisation et Simulation Multi Echelle (MSME) of Université Paris-Est Marne-la-Vallée (UPEM), France.

2011 - 2012 Pedagogic head of the bi-weekly meeting of Doctoral School of Practical Sciences (EDSP) of Cachan, France.

2009 - 2010 Member of the Organizing Committee for the weekly meetings of “Structures and Systems” Division at Laboratory of Mechanics and Technology (LMT-Cachan), Cachan, France.

2006 - 2007 Vice-President of the Sports Committee at ENS Cachan, France.

Advising and supervising activities

Doctoral students

2021 - 2024 PhD student: M. Noel
Title: On the prediction of the mechanical resistance of connections, in static and fatigue, between furniture elements during standardized validation tests
Financial support: Université Gustave Eiffel
Laboratory: MSME, Université Gustave Eiffel, France
Supervisors: L. Chevalier (50%), F. Pled (50%)

2020 - 2022 PhD student: I. Satgun
Title: Stochastic modeling and identification of random material and geometrical properties using machine learning methods for crack propagation in random heterogeneous elastic media
Financial support: Université Gustave Eiffel
Laboratory: MSME, Université Gustave Eiffel, France
Supervisors: C. Desceliers (50%), F. Pled (50%)
Stopped on: August 31, 2022 at Université Gustave Eiffel

2016 - 2019 PhD student: T. Zhang
Title: Multiscale statistical inverse problem for the identification of random fields of elastic properties
Financial support: UPEM
Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France
Supervisors: C. Desceliers (70%), F. Pled (30%)
Defended on: December 11, 2019 at Université Paris-Est Marne-la-Vallée

2015 - 2018 PhD student: Z. Chen
Title: Virtual simulation and validation tests for furniture - plates based furniture
Financial support: CIFRE joint with FCBA (the French Institute of Technology for Forest-based and Furniture Sectors)
Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France
Supervisors: L. Chevalier (40%), F. Pled (60%)
Defended on: January 28, 2019 at Université Paris-Est Marne-la-Vallée

Master students in Master's Year 2

Mar. - June 2022	Student: B.T. Lai Topic: Analysis and modeling of shock tests on furniture Laboratory: MSME, Université Gustave Eiffel, France Advisors: L. Chevalier (75%), F. Pled (25%)
Mar. - June 2021	Student: T.T. Mai Topic: Analysis and modeling of shock tests on furniture Laboratory: MSME, Université Gustave Eiffel, France Advisors: L. Chevalier (50%), F. Pled (50%)
Oct. 2020 - Apr. 2021	Student: L. Winkler Topic: A multi model approach for spruce wooden bed validation failure under mechanical load Laboratory: MSME, Université Gustave Eiffel, France Advisors: L. Chevalier (50%), F. Pled (50%)
Mar. - June 2020	Student: M.Q. Doan Topic: Analysis and modeling of shock tests on furniture Laboratory: MSME, Université Gustave Eiffel, France Advisors: L. Chevalier (50%), F. Pled (50%)
Mar. - June 2020	Student: I. Satgun Topic: Identification of phase field fracture model using artificial neural networks Laboratory: MSME, Université Gustave Eiffel, France Advisors: C. Desceliers (50%), F. Pled (50%)
Mar. - June 2019	Student: Q.D. Ha Topic: Analysis and modeling of shock tests on furniture Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: L. Chevalier (50%), F. Pled (50%)
Mar. - June 2018	Student: F. Zambou Topic: Identification of the behavior of wood under cyclic solicitations in the directions orthogonal to the fibers orientation Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: L. Chevalier (50%), F. Pled (50%)
Nov. 2017 - Mar. 2018	Student: M. Cabocel Topic: Identification of a homogenized rheological constitutive model for reinforced concrete structures under cyclic or seismic solicitations Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: C. Combescure (50%), F. Pled (50%)
Mar. - June 2017	Student: A.D. Le Topic: Stochastic identification of the anisotropic and heterogeneous behaviour of wood by image analysis Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: L. Chevalier (50%), C. Desceliers (25%), F. Pled (25%)
Mar. - June 2016	Student: T.S. Nguyen Topic: Stochastic identification of the anisotropic and heterogeneous behaviour of wood by image analysis Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: L. Chevalier (50%), C. Desceliers (25%), F. Pled (25%)
Mar. - June 2015	Student: H.T. Nguyen Topic: Multiscale method with patches for the non-intrusive coupling of models Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisor: F. Pled (100%)
Mar. - Aug. 2012	Student: K. Kergrene Topic: New verification tools for the control of reduced models through Proper Generalized Decomposition Laboratory: LMT-Cachan, ENS Cachan, France Advisors: L. Chamoin (50%), F. Pled (50%)

Master students in Master's Year 1

Apr. - May 2019	Student: N. Pauly Topic: Multiscale method for the propagation of localized cracks Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: F. Pled (100%)
Apr. - May 2017	Student: P. Lacorre Topic: Multiscale method for the solution of hyperbolic equations with localized uncertainties Laboratory: GeM, Université de Nantes, France Advisors: M. Chevreuil (50%), F. Pled (50%)
Apr. - May 2015	Student: Y. Yu Topic: Stochastic multiscale modeling of cortical bone elasticity based on high-resolution imaging Laboratory: MSME, Université Paris-Est Marne-la-Vallée, France Advisors: C. Desceliers (50%), F. Pled (50%)

Undergraduate students

Since 2014 Adviser of 31 undergraduate students at Ecole Supérieure d'Ingénieurs de Paris-Est (ESIPE) with a major in Mechanical or Civil Engineering, Université Gustave Eiffel (formerly Université Paris-Est Marne-la-Vallée), France.

Research Contracts and Grants (funded)

2016 - 2018	CIFRE contract joint with FCBA (the French Institute of Technology for Forest-based and Furniture Sectors) for the PhD thesis of Z. Chen under the supervision of L. Chevalier and F. Pled (amount: $3 \times 12 \text{ k€} = 36 \text{ k€}$)
2017	Financial support of the French Association of Mechanics (Association Française de Mécanique - AFM) and the French National Committee of Mechanics (Comité National Français de Mécanique - CNFM) for the participation to an international conference (UNCECOMP 2017) as a young researcher (amount: 500 €)

Personal skills and competences

Language skills	French: native English: advanced, read, written and spoken, TOEIC 940 points (obtained in 2008) German: basic, read, written and spoken Latin and Ancient Greek: basic, read
Computer skills and competences	Scientific softwares: MATLAB, Maple, Gmsh, ParaView, Cast3m, ABAQUS, RDM6, Graitec Advance Structure, Robot Structural Analysis, CATIA Programming languages: C/C++, Python, Matlab Operating systems: Linux, Mac & Windows, associated office automation tools Other softwares: L ^A T _E X, Beamer
Mobility	Fully mobile, International car driving licence

Personal interests

Sports	Soccer (Member of the University Soccer Team), Skiing
Leisure - Hobbies	Music (Trumpet), Board and card games, Video games, Cooking, Traveling and Experiencing different cultures
